WE CAN CREATE ANY SHAPE

Tacker Signs are an essential tool for building brand recognition. Perfect for both indoor and outdoor use, these fully customizable aluminum signs let you showcase your brand with standout designs that grab attention. Ideal for a wide range of industries, Tacker Signs enhance visibility and reinforce your identity.

With our ability to diecut any shape and print vibrant, high-quality graphics made to your exact specifications, the creative possibilities are endless. Whether you're looking to make a bold statement or add a cool factor to your space, our award-winning printing ensures your brand stands out. We can print using a wide array of options and finishes. Spot Color or Four Color Process are both available.

If you're not using **Tacker Signs** yet, it's time to unlock their potential and take your brand from ordinary to extraordinary.

NORMAL PRODUCTION TIME: Approximately 4-6 weeks after art and credit approval.

FOR RUSH SERVICE: Approximately 10 working days after proof and payment received. Send an email for current production schedule, rush options, and rush charges.

PRICES: All prices are USD. Prior approval is required for all artwork combined for quantity pricing. For quantities falling between pricing breaks, use smaller quantity pricing. Returned check charge is \$35.

PROOFS: One free virtual proof is provided at no charge for a project. Each subsequent proof or variant proofs for the same project is \$15.00. Proof approval is required for new artwork, and artwork requiring copyright or trademark licensor approval.

ARTWORK: All art files must be submitted in a printable format based on the printing option selected. *We charge \$75.00/hr to recreate artwork for our printing process.* We do not share the printable files recreated. A jpeg or e-mail proof are the only files available upon request.

COLORS: Base prices include choice of one standard background color and one imprint color. Add extra charge for each additional color. Add \$0.05 per item for halftones. Most Pantone Matching System(PMS) colors are available. Although not guaranteed, we will try to match PMS colors as closely as possible. There is an upcharge for premium background colors.

REVERSE-OUT: Print background colors other than standard background colors to within 1/4" of edges of plate or sign.

BYLINES: Add \$0.05 per item.

OVERRUNS AND UNDERRUNS: All orders are subject to 5% over or under run.

EXACT RUN CHARGE: Please add 5% to your order total for exact quantity to be shipped. No exceptions.

SHIPPING: See product specs for shipping weights. Normal shipping will be by least expensive method unless otherwise directed. Sorry, no COD shipments permitted. When arranging an LTL or courier service, you must sign and submit a Customer Arranged Freight Election and Liability Waiver form before shipment is released.

PACKAGING: See product specs for individual packaging options.

ORDER ISSUES: Any order discrepancies must be reported within 60 days from receipt.

DROP SHIPMENTS: Orders shipped at one time to one or more destinations are \$5.00 per additional destination. *Larger items will incur an additional charge.*

3RD PARTY FREIGHT: Handling charges will be added to all orders requesting 3rd party.

DELAYED SHIPMENTS: If held over sixty days, orders will be billed at price that applies at time of shipment.

CANCELLATIONS: Orders are considered firm and cannot be canceled without written authorization from factory. Any art and production costs incurred at that point will be invoiced accordingly.

CHANGES TO ORDERS: All changes to orders must be requested in writing and will be acknowledged by authorization from the factory. Increases in orders will be treated as separate orders unless notification is received prior to production of original order.

TRADEMARKS: Clients and customers must obtain proper authorization to use any and all trademarks presented to us for reproduction. We can assume no liability for any disputes arising out of any unauthorized use of trademarks presented to us for reproduction.

UPC / LICENSED PRODUCT LABEL: A licensed product or UPC label can be affixed to each product. Please call factory for pricing.

SPOT COLOR ART GUIDELINES

VECTOR ART IS REQUIRED FOR ALL SPOT COLOR(S) PRINTING. Vector art is an editable contour line drawing or typeset copy usually created in a professional graphic program such as Adobe Illustrator, Photoshop, or InDesign. The artwork remains crisp and scalable.

All colors must be Pantone Matching System (PMS) for spot color art. Please take note of the slot or hole and embossed border placement so that artwork does not interfere.

OUR PREFERRED GRAPHIC PROGRAM IS ADOBE ILLUSTRATOR.

If available, please send files in their native format. Fonts must be converted to outlines.

We recommend including your P.O.# and artwork description in the art file name.

PLEASE SPECIFY PANTONE MATCHING SYSTEM (PMS) COLORS OR SPOT COLORS, NOT CMYK OR RGB COLORS.

Although not guaranteed, PMS colors are matched as closely as possible.

When a requested background color is unavailable, we will reverse-out, which means printing a product with a particular color up to the embossed border (1/4" from the edge of plate). See River Wilderness plate on page 3. Borders of plates or signs are always embossed whether printed or not. This ensures rigidity and durability.

4 COLOR PROCESS ART GUIDELINES

Acceptable file formats are .ai (prefered), pdf, tif and jpeg with a minimum resolution of 300 dpi.

*** If submitted a bitmap design (non-vector), a one color vector file must also be supplied, illustrating embossing detail.

Embossing Vector File:

Original Bitmap Art File:

If your design requires a die-cut shape or is printed to the edge of the plate or sign, please include a 1/8" bleed to image supplied for cut area. Please take note of the slot or hole and embossed border placement so that artwork does not interfere.

Pantone matches will be made as close as possible with CMYK colors. WHEN DESIGNING YOUR ARTWORK, WE REQUIRE THAT YOUR DOCUMENT SETTINGS ARE SET TO CMYK NOT RGB. Please use only CMYK color palettes to create your design. This will reduce any art or color issues when converting from RGB to CMYK.

*** For the best black output, we recommend setting your CMYK black to C:40 M:40 Y:40 K:100.

WOOD SPECIFICATIONS

Due to imperfections and weathering of the wood used to construct barrel heads, mdf and plywood products, each sign has unique coloration. We cannot guarantee Pantone color matches as the natural wood absorbs the ink and manipulates the finished colors.

WHEN REQUIRING A SPECIFIC ROUTE SHAPE, A ONE COLOR VECTOR LINE ART OF THE SHAPE IS NEEDED.

Wood signs are recommended for indoor usage and not in areas of moisture, water, or rain.

*Illustrations of logo, trademarks or designs on products in our catalog do not necessarily imply endorsement of those products. They merely indicate our manufacturing capabilities.
